Pleserved Flower

“Preserved” is a meaning, "the save".

It is new "the flower which doesn't die" which can continue to for a long time keep a fresh flower, and the color, the form which is fresh which changes hardly, to do the soft fresh changes by the latest save processing technology.

It is different from the fresh flower and there is not need of the water sending.

It places in the place which doesn't get the dry direct sunlight and it blooms below.
