To whom it may concern :

SUPPLY EQUIPMENT & PARTS FROM KYOWA

This is to introduce Kyowa & Co., Ltd. and the export sales products.

Power / Steel / Petrochemical / Industrial Plant is consisting of a various kind of the special equipment and many manufactures.

Kyowa has a lot of experiences of the after sales services of the plant maintenance, supplying the industrial plant equipment and spare parts to the world.

Usually, the customer has procured the genuine spare parts from the original plant supplier or manufacturers, however, his performance is lower / slower, the cost is very expensive.

On the other hand, the plant maintenance peoples face some difficulty to find the correct one out, or alternative economy one, sometime missing of the identified documents like as drawing, parts book, catalog, etc..

The plant operation and maintenance if very important, and needs much experience and much technical know-how.

In order to improve the maintenance cost and time, Kyowa shall supply the various spare / maintenance / consumable parts (machinery and electric) made in Japan with very competitive price to you.
